ready to scale**

# What we offer

**Growth capital & Support**

- Seed / Series A
- 0.5mln – 10mln investments
- Support to build companies to greatness with maximum impact
- And yes ... happy to also invest in hardware and production business models!

# Rubio's energy transition portfolio includes

# taylor.

### More power

Up to 20% more energy compared to normal solar panels

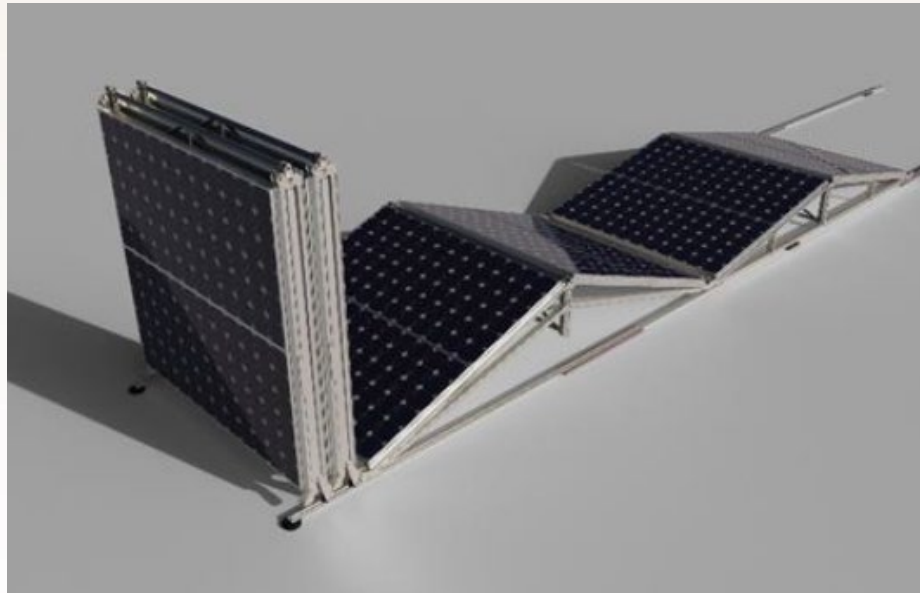

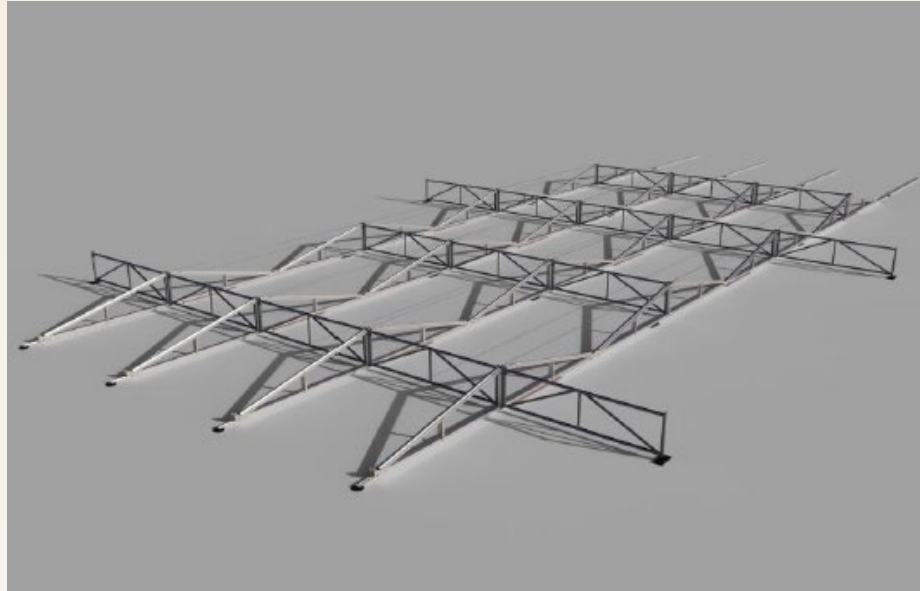

### Advanced insight

Cell-level data provides real-time diagnostics for the system owner

### Safer

Temperature and maintenance shutdown lowers (fire) risk

# RABLE

## Fast and no ballast

Rable has developed a solar mounting structure that unlocks 'weak' flat roofs. Ballast is not required due to the lattice structure and installation is faster than ever due to folding system.

Sympower is a flexibility services provider:

**We create value  
with flexibility**

### Vision

**A fully renewable energy system, enabling a sustainable world.**

### Mission

**Optimising our customers' energy strategies using the flexibility of their assets and processes.**

# Silicon in Li-ion batteries for electric vehicles

## Silicon impact on batteries

- 40% lighter
- 40% less volume
- Faster charging

Lighter cars  
More space  
Cheaper

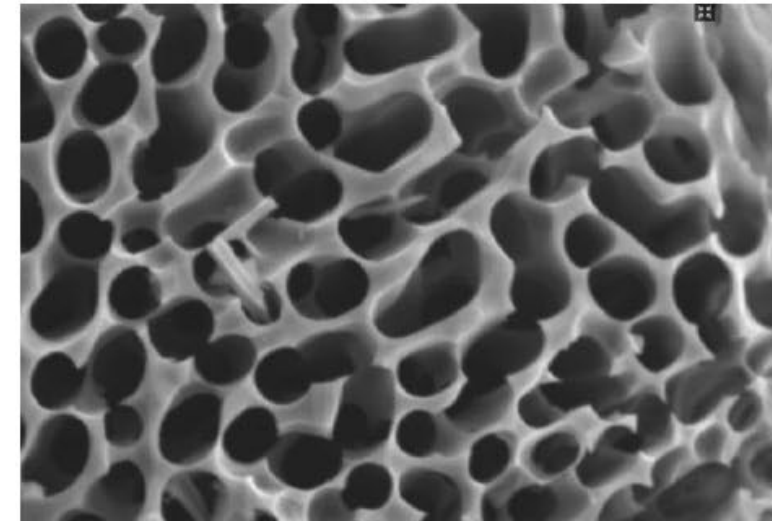

## Silicon challenge

- Extreme silicon volume change
- Silicon breaks and disconnects

The Solution:  
E-magy's nano  
porous silicon
